# Preface

Hello, thank you for stopping by. In this document, you will find some of the stuff I have come across in my Ph.D. research and my personal experience.

```
// find sum of two numbers
```

# 1 Introduction

This is a book created from markdown and executable code.

See Knuth (1984) for additional discussion of literate programming.

## 2 Communities

This is a book created from markdown and executable code.

See Knuth (1984) for additional discussion of literate programming.

## 3 Softwares and Tools

This is a book created from markdown and executable code.

See Knuth (1984) for additional discussion of literate programming. `ç`

## 4 Python

This is a book created from markdown and executable code.

See Knuth (1984) for additional discussion of literate programming.

## 5 R

This is a book created from markdown and executable code.

See Knuth (1984) for additional discussion of literate programming.

## 6 Opportunities

This is a book created from markdown and executable code.

See Knuth (1984) for additional discussion of literate programming.

## 7 Scientific Writing

This is a book created from markdown and executable code.

See Knuth (1984) for additional discussion of literate programming.

## 8 Natural Language Processing

This is a book created from markdown and executable code.

See Knuth (1984) for additional discussion of literate programming.

## 9 Deep Learning

This is a book created from markdown and executable code.

See Knuth (1984) for additional discussion of literate programming.

## 10 Summary

In summary, this book has no content whatsoever.
